## Tech

Wandering Earl uses a number of HTML controls to work properly:

- [href] - creates a hyperlink to web pages, files, email addresses, locations.
- [a] - An anchor tag is a HTML element that creates a link to a target URL.
- [div] - The tag defines a division or a section in an HTML document.
- [table] - HTML tables allow web developers to arrange data into rows and columns.
- [img] - The tag is used to embed an image images are linked to web pages.
- [form] - The tag is used to create an HTML form for user input.
- [button] - defines a clickable button.

## Installation

Bubble Bee Cafe website requires (<https://visualstudio.microsoft.com/>) to run.

Install the dependencies and devDependencies and start the server.
